Judge’s comments: “You worked your tail off gathering interesting information. Now use it. You had a great story from a preacher who said people would rather gamble than give to the church. He wanted to stand up in a casino and preach. That would have been a great lead into the story. Then tell us how gambling affects people.

Or the guy who said gambling is a 50-50 shot. If you had one bullet in the chamber with the same odds would you take the shot? Probably not. I wish you had taken a shot with this story then lead into the dangers of gambling”
