Judge’s comments: “From the jump, your video component is compelling, well edited and contains a great mix of B-roll, natural sound and proper labelling/attribution. You also took care to not let your subjects go on too long but gave them enough space and time to dig into the meat of their remarks. Really liked hearing not just from the coach but players. Also loved seeing that this is the end result of days worth of video work. Clearly a passion project that observes all the right hallmarks of good journalism.
