Judge's comments: “This is a very well done package. You collected great sounds and video. I would encourage you to get more angles for your B roll, and don't be afraid to physically move the camera closed to your subject (when it's safe to do so). This way you don't have to worry about using digital zoom in your editing software.

Tighten up some of your editing and writing. Six minutes is a long time for a package. Think about only the most important information your audience needs to understand what they need to know. The extra information can be written into the story for the website.”
