**Judge's comments:** "Out of all the submissions, this design stood out to me the most, and it did for a few days afterward. I love the number of student illustrations and photo placements in the pages. The photo captions were done well. The infographics were exceptional. It's vibrant, fun, and informative. I like that you're not afraid to take risks. If I were a student, your design would entice me to pick up. People's attention is being pulled in a million different ways, and I think your design is inspired enough to get people to read. The only feedback I would offer is that some pages feel a little cluttered, which is something to watch out for. Overall, I loved looking through your paper and think you're doing a great job."
